LIST OF CONTENTS

2004

Vol. 44, No. 1

Review

W. Rajendra, A. Armugam and K. Jeyaseelan — 1 — Toxins in anti-nociception and anti-inflammation

G.-H. Yang, K.-S. Kim, H.-W. Kim, S. T. Jeong, G. H. Huh, J. C. Kim and H. H. Jung — 19 — Isolation and characterization of a neutralizing antibody specific to internalization domain of *Clostridium botulinum* neurotoxin type B

P. Huang and S. P. Mackessy — 27 — Biochemical characterization of phospholipase A_2 (trimorphin) from the venom of the Sonoran Lyre Snake *Trimorphodon biscutatus lambda* (family Colubridae)

G. Usup, C.-P. Leaw, M.-Y. Cheah, A. Ahmad and B.-K. Ng — 37 — Analysis of paralytic shellfish poisoning toxin congeners by a sodium channel receptor binding assay

U. Bickmeyer, C. Drechsler, M. Köck and M. Assmann — 45 — Brominated pyrrole alkaloids from marine *Agelas* sponges reduce depolarization-induced cellular calcium elevation

Y. Bentur, B. Raikhlin-Eisenkraft and M. Galperin — 53 — Evaluation of antivenom therapy in *Vipera palaestinae* bites

J. R. Colman, M.-Y. B. Dechraoui, R. W. Dickey and J. S. Ramsdell — 59 — Characterization of the developmental toxicity of Caribbean ciguatoxins in finfish embryos

M. A. Mendes, B. M. de Souza, M. R. Marques and M. S. Palma — 67 — Structural and biological characterization of two novel peptides from the venom of the neotropical social wasp *Agelaia pallipes pallipes*

I. A. Samdal, L. J. Naustvoll, C. D. Olseng, L. R. Briggs and C. O. Miles — 75 — Use of ELISA to identify *Protoceratium reticulatum* as a source of yessotoxin in Norway

A. Franchini, E. Marchesini, R. Poletti and E. Ottaviani — 83 — Lethal and sub-lethal yessotoxin dose-induced morpho-functional alterations in intraperitoneal injected Swiss CD1 mice

V. Núñez, V. Arce, J. M. Gutiérrez and B. Lomonte — 91 — Structural and functional characterization of myotoxin I, a Lys49 phospholipase A_2 homologue from the venom of the snake *Bothrops atrox*

Short Communications

G. D. Laing, A. Yarleque, A. Marcelo, E. Rodriguez, D. A. Warrell and R. D. G. Theakston — 103 — Preclinical testing of three south American antivenoms against the venoms of five medically-important Peruvian snake venoms

K.-i. Harada, S. Imanishi, H. Kato, M. Mizuno, E. Ito and K. Tsuji — 107 — Isolation of Adda from microcystin-LR by microbial degradation

A. Poapolathep, Y. Sugita-Konishi, T. Phitsanu, K. Doi and S. Kumagai — 111 — Placental and milk transmission of trichothecene mycotoxins, nivalenol and fusarenon-X, in mice

115 — Bibliography of Toxinology

Vol. 44, No. 2

Mini-Review

R. A. Li and G. F. Tomaselli — 117 — Using the deadly μ-conotoxins as probes of voltage-gated sodium channels

P. Vale — 123 — Differential dynamics of dinophysistoxins and pectenotoxins between blue mussel and common cockle: a phenomenon originating from the complex toxin profile of *Dinophysis acuta*

T. Carrette and J. Seymour — 135 — A rapid and repeatable method for venom extraction from Cubozoan nematocysts

D. G. Beghini, S. Hernandez-Oliveira, L. Rodrigues-Simioni, J. C. Novello, S. Hyslop and S. Marangoni — 141 — Anti-sera raised in rabbits against crotoxin and phospholipase A_2 from *Crotalus durissus cascavella* venom neutralize the neurotoxicity of the venom and crotoxin

H. Satake, E. Villegas, N. Oshiro, K. Terada, T. Shinada and G. Corzo — 149 — Rapid and efficient identification of cysteine-rich peptides by random screening of a venom gland cDNA library from the hexathelid spider *Macrothele gigas*

R. S. Leite, C. D. Giuliani, B. Lomonte, W. Franco and H. S. Selistre-de-Araujo — 157 — Effect of a recombinant Lys49PLA_2 myotoxin and Lys49PLA_2-derived synthetic peptides from *Agkistrodon* species on membrane permeability to water

Q. Zhao, S. Araki, S. L. Zhang and J. Miao — 161 — Rattlesnake venom induces apoptosis by stimulating PC-PLC and upregulating the expression of integrin β_4, P53 in vascular endothelial cells

C. M. Yonamine, L. R. P. Troncone and M. A. P. Camillo — 169 — Blockade of neuronal nitric oxide synthase abolishes the toxic effects of Tx2-5, a lethal *Phoneutria nigriventer* spider toxin

R. Munday, N. R. Towers, L. Mackenzie, V. Beuzenberg, P. T. Holland and C. O. Miles — 173 — Acute toxicity of gymnodimine to mice

A. L. A. Nencioni, I. Lebrun and V. A. C. Dorce — 179 — Dantrolene protects hippocampal cells from damage induced by TsTX, an α-scorpion toxin from *Tityus serrulatus*

Y. Kawashima, Y. Nagashima and K. Shiomi — 185 — Determination of tetramine in marine gastropods by liquid chromatography/electrospray ionization-mass spectrometry

N. Chetty, A. Du, W. C. Hodgson, K. Winkel and B. G. Fry — 193 — The in vitro neuromuscular activity of Indo-Pacific sea-snake venoms: efficacy of two commercially available anti-venoms

R. Pandey and S. B. Deshpande — 201 — Protective effects of aprotinin on respiratory and cardiac abnormalities induced by *Mesobuthus tamulus* venom in adult rats

R. W. Teichert, J. Rivier, J. Dykert, L. Cervini, J. Gulyas, G. Bulaj, M. Ellison and B. M. Olivera — 207 — αA-Conotoxin OIVA defines a new αA-conotoxin subfamily of nicotinic acetylcholine receptor inhibitors

M. V. Mazzi, S. Marcussi, G. B. Carlos, R. G. Stábeli J. J. Franco, F. K. Ticli, A. C. O. Cintra, S. C. França, A. M. Soares and S. V. Sampaio — 215 — A new hemorrhagic metalloprotease from *Bothrops jararacussu* snake venom: isolation and biochemical characterization

225 — Bibliography of Toxinology

Vol. 44, No. 3

Mini-Review

Y. Yamazaki and T. Morita — 227 — Structure and function of snake venom cysteine-rich secretory proteins

R. A. M. de Avila, L. M. Alvarenga, C. A. P. Tavares, F. Molina, C. Granier and C. Chávez-Olórtegui — 233 — Molecular characterization of protective antibodies raised in mice by *Tityus serrulatus* scorpion venom toxins conjugated to bovine serum albumin

E. M. Lehman, E. D. Brodie Jr. and E. D. Brodie III — 243 — No evidence for an endosymbiotic bacterial origin of tetrodotoxin in the newt *Taricha granulosa*

B. Paz, P. Riobó, M. L. Fernández, S. Fraga and J. M. Franco — 251 — Production and release of yessotoxins by the dinoflagellates *Protoceratium reticulatum* and *Lingulodinium polyedrum* in culture

S. R. Zamunér, M. A. da Cruz-Höfling, A. P. Corrado, S. Hyslop and L. Rodrigues-Simioni — 259 — Comparison of the neurotoxic and myotoxic effects of Brazilian *Bothrops* venoms and their neutralization by commercial antivenom

C. S. de Castro, F. G. Silvestre, S. C. Araújo, G. de Menezes Yazbeck, O. C. Mangili, I. Cruz, C. Chávez-Olórtegui and E. Kalapothakis — 273 — Identification and molecular cloning of insecticidal toxins from the venom of the brown spider *Loxosceles intermedia*

R.-Q. Chen, Y. Jin, J.-B. Wu, X.-D. Zhou, D.-s. Li, Q.-M. Lu, W.-Y. Wang and Y.-L. Xiong — 281 — A novel high molecular weight metalloproteinase cleaves fragment F1 of activated human prothrombin

A. M. Taraka-Azevedo, R. J. S. Torquato, A. S. Tanaka and I. S. Sano-Martins — 289 — Characterization of *Bothrops jararaca* coagulation inhibitor (BjI) and presence of similar protein in plasma of other animals

Y.-Y. He, W.-H. Lee and Y. Zhang — 295 — Cloning and purification of α-neurotoxins from king cobra (*Ophiophagus hannah*)

V. M. Rodrigues, S. Marcussi, R. S. Cambraia, A. L. de Araújo, N. R. Malta-Neto, A. Hamaguchi, E. A. V. Ferro, M. I. Homsi-Brandeburgo, J. R. Giglio and A. M. Soares — 305 — Bactericidal and neurotoxic activities of two myotoxic phospholipases A_2 from *Bothrops neuwiedi pauloensis* snake venom

E. V. Klyshko, M. P. Issaeva, M. M. Monastyrnaya, A. P. Il'yna, K. V. Guzev, T. I. Vakorina, P. S. Dmitrenok, T. A. Zykova and E. P. Kozlovskaya — 315 — Isolation, properties and partial amino acid sequence of a new actinoporin from the sea anemone *Radianthus macrodactylus*

C. O. Miles, A. L. Wilkins, A. D. Hawkes, A. Selwood, D. J. Jensen, J. Aasen, R. Munday, I. A. Samdal, L. R. Briggs, V. Beuzenberg and A. L. MacKenzie — 325 — Isolation of a 1,3-enone isomer of heptanor-41-oxoyessotoxin from *Protoceratium reticulatum* cultures

G. D. Laing, A. Yarleque, A. Marcelo, E. Rodriguez, D. A. Warrell and R. D. Theakston — 337 — Erratum

339 — Bibliography of Toxinology

Vol. 44, No. 4

Editorial

G. G. Habermehl — 341 — Highlights on plant toxins in *Toxicon*

Reviews

J. A. Guimarães and C. R. Carlini — 345 — Most cited papers in Toxicon

S. Olsnes — 361 — The history of ricin, abrin and related toxins

F. Stirpe — 371 — Ribosome-inactivating proteins

I. M. Vasconcelos and J. T. A. Oliveira — 385 — Antinutritional properties of plant lectins

G. Philippe, L. Angenot, M. Tits and M. Frédérich — 405 — About the toxicity of some *Strychnos* species and their alkaloids

H. D. Neuwinger — 417 — Plants used for poison fishing in tropical Africa

E. S. Garcia and P. Azambuja — 431 — Lignoids in insects: chemical probes for the study of ecdysis, excretion and *Trypanosoma cruzi*—triatomine interactions

M. Gordaliza, P. A. García, J. M. M. del Corral, M. A. Castro and M. A. Gómez-Zurita — 441 — Podophyllotoxin: distribution, sources, applications and new cytotoxic derivatives

E. A. Carlini — 461 — The good and the bad effects of (−) *trans*-delta-9-tetrahydrocannabinol (Δ^9-THC) on humans

Vol. 44, No. 5

Mini-Review

L. M. Roberts and D. C. Smith — 469 — Ricin: the endoplasmic reticulum connection

A. Gambero, S. M. Thomazzi, A. C. O. Cintra, E. C. T. Landucci, G. De Nucci and E. Antunes — 473 — Signalling pathways regulating human neutrophil migration induced by secretory phospholipases A_2

D. Castro, D. Vera, N. Lagos, C. García and M. Vásquez — 483 — The effect of temperature on growth and production of paralytic shellfish poisoning toxins by the cyanobacterium *Cylindrospermopsis raciborskii* C10

L.-S. Chang, P.-F. Wu, J.-C. Liou, W.-H. Chiang-Lin and C.-C. Yang — 491 — Chemical modification of arginine residues of *Notechis scutatus scutatus* notexin

K. Shiomi, S. Midorikawa, M. Ishida, Y. Nagashima and H. Nagai — 499 — Plancitoxins, lethal factors from the crown-of-thorns starfish *Acanthaster planci*, are deoxyribonucleases II

B. Ramos-Cerrillo, A. Olvera, G. V. Odell, F. Zamudio, J. Paniagua-Solís, A. Alagón and R. P. Stock — 507 — Genetic and enzymatic characterization of sphingomyelinase D isoforms from the North American fiddleback spiders *Loxosceles boneti* and *Loxosceles reclusa*

M. B. Tanu, Y. Mahmud, O. Arakawa, T. Takatani, H. Kajihara, K. Kawatsu, Y. Hamano, M. Asakawa, K. Miyazawa and T. Noguchi — 515 — Immunoenzymatic visualization of tetrodotoxin (TTX) in *Cephalothrix* species (Nemertea: Anopla: Palaeonemertea: Cephalotrichidae) and *Planocera reticulata* (Platyhelminthes: Turbellaria: Polycladida: Planoceridae)

P. Mardones, D. Andrinolo, A. Csendes and N. Lagos — 521 — Permeability of human jejunal segments to gonyautoxins measured by the Ussing chamber technique

O. H. P. Ramos and H. S. Selistre-de-Araujo — 529 — Comparative analysis of the catalytic domain of hemorrhagic and non-hemorrhagic snake venom metallopeptidases using bioinformatic tools

S. Kauferstein, I. Huys, U. Kuch, C. Melaun, J. Tytgat and D. Mebs — 539 — Novel conopeptides of the I-superfamily occur in several clades of cone snails

M. A. O'Leary, J. J. Schneider and G. K. Isbister — 549 — Use of high performance liquid chromatography to measure tetrodotoxin in serum and urine of poisoned patients

A. C. L. Nobre, S. M. Nunes-Monteiro, M. C. S. A. Monteiro, A. M. C. Martins, A. Havt, P. S. F. Barbosa, A. A. M. Lima and H. S. A. Monteiro — 555 — Microcystin-LR promote intestinal secretion of water and electrolytes in rats

M. Yuan and W. W. Carmichael — 561 — Detection and analysis of the cyanobacterial peptide hepatotoxins microcystin and nodularin using SELDI-TOF mass spectrometry

I. de L. M. Junqueira-de-Azevedo, M. B. da Silva, A. M. Chudzinski-Tavassi and P. L. Ho — 571 — Identification and cloning of snake venom vascular endothelial growth factor (svVEGF) from *Bothrops erythromelas* pitviper

577 — Bibliography of Toxinology

Vol. 44, No. 6

Mini-Review

A. M. Torres and P. W. Kuchel — 581 — The β-defensin-fold family of polypeptides

M. E. Peichoto, O. Acosta, L. Leiva, P. Teibler, S. Maruñak and R. Ruíz — 589 — Muscle and skin necrotizing and edema-forming activities of Duvernoy's gland secretion of the xenodontine colubrid snake *Philodryas patagoniensis* from the north-east of Argentina

H. S. R. Prasad, Z. Qi, K. N. Srinivasan and P. Gopalakrishnakone — 597 — Potential effects of tetrodotoxin exposure to human glial cells postulated using microarray approach

A. Rangel-Santos, C. Lima, M. Lopes-Ferreira and D. F. Cardoso — 609 — Immunosuppresive role of principal toxin (crotoxin) of *Crotalus durissus terrificus* venom

T. M. Mendes, W. S. Maria, C. Granier, C. Chávez-Olórtegui and E. Kalapothakis — 617 — Epitope mapping of the antigenic protein TsNTxP from *Tityus serrulatus* scorpion venom using mouse, rabbit and sheep antibodies

G. H. da Silva, S. Hyslop and M. A. da Cruz-Höfling — 625 — *Lonomia obliqua* caterpillar venom increases permeability of the blood–brain barrier in rats

V. Herzig, R. J. Ward and W. F. dos Santos — 635 — Ontogenetic changes in *Phoneutria nigriventer* (Araneae, Ctenidae) spider venom

C.-F. Yu, P. H.-F Yu, P.-L. Chan, Q. Yan and P.-K. Wong — 641 — Two novel species of tetrodotoxin-producing bacteria isolated from toxic marine puffer fishes

H. Tai, Q. Wei, Y. Jin, M. Su, J.-X. Song, X.-D. Zhou, H.-M. Ouyang, W.-Y. Wang, Y.-L. Xiong and Y. Zhang — 649 — TMVA, a snake C-type lectin-like protein from *Trimeresurus mucrosquamatus* venom, activates platelet via GPIb

H.-P. Lin, Y. Cho, H. Yashiro, T. Yamada and Y. Oshima — 657 — Purification and characterization of paralytic shellfish toxin transforming enzyme from *Mactra chinensis*

N. V. Kulagina, T. J. O'Shaughnessy, W. Ma, J. S. Ramsdell and J. J. Pancrazio — 669 — Pharmacological effects of the marine toxins, brevetoxin and saxitoxin, on murine frontal cortex neuronal networks

S. M. Plakas, Z. Wang, K. R. El Said, E. L. E. Jester, H. R. Granade, L. Flewelling, P. Scott and R. W. Dickey — 677 — Brevetoxin metabolism and elimination in the Eastern oyster (*Crassostrea virginica*) after controlled exposures to *Karenia brevis*

S. H. P. Farsky, J. W. M. Costa-Cruz, Y. Cury and C. F. P. Teixeira — 687 — Erratum to "Leukocyte response induced by *Bothrops jararaca* crude venom: in vivo and in vitro studies" [Toxicon 35 (1997) 185–193]

689 — Bibliography of Toxinology

G. Harbermehl and D. Mebs — 691 — Findlay E. Russell, 85

Vol. 44, No. 7

Review

P. H. da Silva, R. B. da Silveira, M. H. Appel, O. C. Mangili, W. Gremski and S. S. Veiga — 693 — Brown spiders and loxoscelism

E. Oyama and H. Takahashi — 711 — Amino acid sequence of a thrombin like enzyme, elegaxobin II, from the venom of *Trimeresurus elegans* (Sakishima-Habu)

P. V. L. Rao, R. Jayaraj and A. S. B. Bhaskar — 723 — Protective efficacy and the recovery profile of certain chemoprotectants against lethal poisoning by microcystin-LR in mice

C. Sevcik, G. D'Suze, P. Díaz, V. Salazar, C. Hidalgo, H. Azpúrua and N. Bracho — 1 — Modelling *Tityus* scorpion venom and antivenom pharmacokinetics. Evidence of active immunoglobulin G's $F(ab')_2$ extrusion mechanism from blood to tissues

I. C. Yen, L. R. de Astudillo, J. F. Soler and A. La Barbera-Sanchez — 743 — Paralytic shellfish poisoning toxins in green mussels (*Perna viridis*) from the Gulf of Paria, Trinidad

P. Saravia-Otten, T. Frisan, M. Thelestam and J. M. Gutiérrez — 749 — Membrane independent activation of fibroblast proMMP-2 by snake venom: novel roles for venom proteinases

A. Robertson, D. Stirling, C. Robillot, L. Llewellyn and A. Negri — 765 — First report of saxitoxin in octopi

I. C. G. Nogueira, P. Pereira, E. Dias, S. Pflugmacher, C. Wiegand, S. Franca and V. M. Vasconcelos — 773 — Accumulation of paralytic shellfish toxins (PST) from the cyanobacterium *Aphanizomenon issatschenkoi* by the cladoceran *Daphnia magna*

W. J. French, W. K. Hayes, S. P. Bush, M. D. Cardwell, J. O. Bader and E. D. Rael — 781 — Mojave toxin in venom of *Crotalus helleri* (Southern Pacific Rattlesnake): molecular and geographic characterization

C. S. Seibert, M. R. L. Oliveira, L. R. C. Gonçalves, M. L. Santoro and I. S. Sano-Martins — 793 — Intravascular hemolysis induced by *Lonomia obliqua* caterpillar bristle extract: an experimental model of envenomation in rats

801 — Bibliography of Toxinology

Vol. 44, No. 8

J. W. Daly, N. Noimai, B. Kongkathip, N. Kongkathip, J. M. Wilham, H. M. Garraffo, T. Kaneko, T. F. Spande, Y. Nimit, J. Nabhitabhata and T. Chan-Ard — 805 — Biologically active substances from amphibians: preliminary studies on anurans from twenty-one genera of Thailand

J. W. Burnett and G. J. Calton — 817 — The case for verapamil use in alarming jellyfish stings remains

G. K. Isbister, S. Ramasamy, J. E. Seymour and W. C. Hodgson — 819 — Verapamil treatment in severe *Chironex fleckeri* stings

X.-Y. Li, I.-K. Chung, J.-I. Kim and J.-A. Lee — 821 — Subchronic oral toxicity of microcystin in common carp (*Cyprinus carpio* L.) exposed to *Microcystis* under laboratory conditions

C. B. Wandscheer, J. E. Duque, M. A. N. da Silva, Y. Fukuyama, J. L. Wohlke, J. Adelmann and J. D. Fontana — 829 — Larvicidal action of ethanolic extracts from fruit endocarps of *Melia azedarach* and *Azadirachta indica* against the dengue mosquito *Aedes aegypti*

S. Ramasamy, G. K. Isbister and W. C. Hodgson — 837 — The efficacy of two antivenoms against the in vitro myotoxic effects of black snake (*Pseudechis*) venoms in the chick biventer cervicis nerve-muscle preparation

H. S. Neto, V. U. Vomero and M. J. Marques — 847 — Insights into the loss of muscle mass following *B. jararacussu* venom in mice

G. D'Suze, V. Salazar, P. Díaz, C. Sevcik, H. Azpurua and N. Bracho — 851 — Histophatological changes and inflammatory response induced by *Tityus discrepans* scorpion venom in rams

É. P. Costa and M. F. Santos 861 Jararhagin, a snake venom metalloproteinase-disintegrin, stimulates epithelial cell migration in an in vitro restitution model

Q. Shi, J. Cui, J. Zhang, F. X. Kong, Z. C. Hua and P. P. Shen 871 Expression modulation of multiple cytokines in vivo by cyanobacteria blooms extract from taihu lake, China

M. Barco, C. Flores, J. Rivera and J. Caixach 881 Determination of microcystin variants and related peptides present in a water bloom of *Planktothrix* (*Oscillatoria*) *rubescens* in a Spanish drinking water reservoir by LC/ESI-MS

S.-i. Miyoshi, H. Watanabe, T. Kawase, H. Yamada and S. Shinoda 887 Generation of active fragments from human zymogens in the brady kinin-generating cascade by extracellular proteases from *Vibrio vulnificus* and *V. parahaemolyticus*

T. Ishikawa, I. Vucenik, A. Shamsuddin, F. Niculescu and J. W. Burnett 895 Two new actions of sea nettle (*Chrysaora quinquecirrha*) nematocyst venom: studies on the mechanism of actions on complement activation and on the central nervous system

L. MacKenzie, V. Beuzenberg, P. Holland, P. McNabb and A. Selwood 901 Solid phase adsorption toxin tracking (SPATT): a new monitoring tool that simulates the biotoxin contamination of filter feeding bivalves

P. F. Puente, M. J. F. Sáez, B. Hamilton, A. Furey and K. J. James 919 Studies of polyether toxins in the marine phytoplankton, *Dinophysis acuta*, in Ireland using multiple tandem mass spectrometry

C. Malbrouck, G. Trausch, P. Devos and P. Kestemont 927 Effect of microcystin-LR on protein phosphatase activity and glycogen content in isolated hepatocytes of fed and fasted juvenile goldfish *Carassius auratus* L.

B. L. Cardall, E. D. Brodie Jr., E. D. Brodie III and C. T. Hanifin 933 Secretion and regeneration of tetrodotoxin in the rough-skin newt (*Taricha granulosa*)

E. Kalmanzon, Y. Rahamim, S. Carmeli, Y. Barenholz and E. Zlotkin 939 Endogenous regulation of the functional duality of pahutoxin, a marine trunkfish surfactant

Short Communications

P. Vale 943 Is there a risk of human poisoning by azaspiracids from shellfish harvested at the Portuguese coast?

A. L. G. Vieira, M. B. Moura, E. H. Babá, C. Chávez-Olórtegui, E. Kalapothakis and I. M. Castro 949 Molecular cloning of toxins expressed by the venom gland of *Lasiodora sp.*

K. N. Laohachai, R. Bahadi, M. B. Hardo, P. G. Hardo and J. I. Kourie 953 Erratum to: "The role of bacterial and non-bacterial toxins in the induction of charges in membrane transport: implications for diarrhea" [Toxicon 42(7):687–707 (2003)]
